PROFESSIONAL SUMMARY

Software Engineer with nearly 5 years of experience designing and developing scalable web applications using React.js, JavaScript, TypeScript, Node.js, and REST APIs. Experienced in building reusable frontend components, integrating backend services, and delivering end-to-end features in Agile environments. Hands-on experience in developing RESTful APIs using Java and Spring Boot, with a strong foundation in Object-Oriented Programming (OOP), SQL, and Data Structures & Algorithms. Passionate about building high-quality software, solving real world problems, and continuously learning modern technologies.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Core Java, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Redux

Backend: Node.js, Express.js, REST APIs

Familiar With: Spring Boot, Spring Data JPA, Spring Security

Databases: PostgreSQL, MongoDB

Tools: Git, Jira, TablePlus, Cursor, Claude Code, UiPath, Parallels

Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, Responsive Design

WORK EXPERIENCE

Software Development Engineer II | **Welocalize** • Noida, India

May 2025 – Apr 2026

- Developed scalable frontend modules using React.js with a focus on reusable component architecture and application performance.
- Designed and implemented REST APIs using Node.js and Express.js to support high-volume translation workflows.
- Collaborated with product managers, designers, QA engineers, and backend developers to deliver production-ready features in Agile sprints.
- Improved maintainability by following modular architecture, reusable components, and clean coding practices.

Software Engineer | **Bold Technology Systems** • Noida, India

Jan 2024 – Mar 2025

- Developed and maintained frontend features for LiveCareer, a resume-building platform serving millions of users across 23 countries.
- Built responsive and reusable React.js components, improving cross-device compatibility and overall user experience.
- Optimized application performance through component refactoring, resulting in improved rendering efficiency and maintainability.
- Worked closely with cross-functional teams to deliver new features and resolve production issues.

Associate – IT (MERN Stack Developer) | Metaverk • Gurgaon, India

Aug 2023 – Nov 2023

- Contributed to the development of Exuber.ai as a Full Stack MERN Developer by building frontend features and backend REST APIs.
- Integrated frontend applications with backend services and participated in feature planning and implementation.
- Presented product demonstrations to international clients and translated client feedback into technical enhancements.

Assistant System Engineer | Tata Consultancy Services (TCS) • Noida, India

Jul 2021 – Aug 2023

- Contributed to the development and maintenance of iRail, an enterprise application supporting railway scheduling for European clients.
- Developed responsive frontend features using React.js and integrated REST APIs to deliver scalable user-facing functionality.
- Built and enhanced RESTful APIs using Java and Spring Boot while contributing to backend business logic and production support.
- Received the Elevate Wings Award for Full Stack Web Development and the Xccelerate Warrior Award for consistent performance.

EDUCATION

B.Tech in Computer Science | Bharat Institute of Technology • Meerut, India

Graduated Aug 2021

CGPA: 8.32 / 10

CERTIFICATIONS

- The Complete 2020 Web Development Bootcamp – Udemy
- Full Stack Web Development (MERN Stack) – LetsUpgrade Edtech Pvt Ltd
- SQL & Relational Databases – Cognitive Classes (IBM)
